<i>Figure Contributions</i>	viii
<i>Foreword</i>	ix
<i>Preface</i>	xi
<i>How to Read This Book</i>	xii

Part I—Basics

1	Introduction	1
2	Polarity	15
3	Montages	17
4	Localization	23
5	Active Reference	29
6	Frequencies and Rhythms	32
7	Maturation	40
8	Normal Adult EEG	53

Part II—Interpretation

9	Approach to EEG Reading	61
10	Background	67
11	Foreground (How to Describe an Abnormality)	79
12	Common Artifacts	83
13	Normal Variants	98
14	Sporadic Abnormalities	119
15	Repetitive Abnormalities	134

16	Ictal Patterns (Electrographic Seizures)	149
----	---	-----

17	Activation Procedures	160
----	------------------------------	-----

Part III—Specific Conditions

18	Common Seizure Mimics	169
19	Seizures	177
20	Epilepsies	187
21	Epilepsy Syndromes	195
22	Focal Dysfunction (Lesions)	214
23	Global Dysfunction (Encephalopathy)	219
24	Status Epilepticus	230
25	Post Cardiac Arrest	239
26	Brain Death	246

<i>Appendix: How to Write a Report</i>	248
